

Lead Pipe Replacement

Get Your Home Tested for Lead

For Kids with Medical Assistance (MA) or the Children's Health Insurance Program (CHIP)

- All Medical Assistance and some CHIP plans will pay to have a company test at your home for free.
- Your child's doctor needs to contact the company and tell them your child tested positive for lead.
- You can call the company and schedule the test. Find your insurance plan below and call the number listed to schedule a test.

Geisinger (MA & CHIP) Accredited Environmental Technologies (800) 969-6238

Health Partners Accredited Environmental Technologies (800) 969-6238

Keystone First (MA) Accredited Environmental Technologies (800) 969-6238

United (MA & CHIP) Accredited Environmental Technologies (800) 969-6238

UPMC (MA & CHIP) Accredited Environmental Technologies (800) 969-6238

For All Kids

- Call your local health department or state health center and ask if they have programs to test your home for lead. Bucks County Department of Health: (215) 345-3318.
- Hire a company to test your home. Call one of the companies above or find a company approved by the Environmental Protection Agency (EPA) here - bit.ly/EPAAbatement.
- Call more than one company to compare prices.

The Pottstown Borough Authority recently voted unanimously to move forward with a \$1.285 million project to find and remove lead water services lines to homes.
